

### Sweden

The Network Readiness Index (NRI) is one of the leading global indices on the application and impact of information and communication technology (ICT) in economies around the world. In its latest version of 2023 the NRI Report maps the network-based readiness landscape of 134 economies based on their performances in four different pillars: Technology, People, Governance, and Impact. Each of these pillars is itself comprised of three sub-pillars (see Figure 1) that have been populated by a total of 58 variables.

Figure 1: The NRI 2023 model Future Technologies Access Content Network Individuals Businesses Governments Readiness Index Trust Regulation Inclusion Impact (<u>o</u>) Quality of Life **SDG** Contribution

Global NRI position of Sweden

Sweden ranks 5th out of the 134 economies included in the NRI 2023 (Figure 2). Its main strength relates to Impact. The greatest scope for improvement, meanwhile, concerns Technology and People.

Rank 1 4 5 5 9 9 20 40 60 80 100 120 134 NRI 2023 Technology Impact People Governance

Figure 2: Sweden global ranking, overall and by pillar

### Performance at sub-pillar level

When it comes to sub-pillars, the strongest showings of Sweden relate to Businesses, Future Technologies and Quality of Life, among others (Table 1). More could be done, though, to improve the economy's performances in the Inclusion, Access and Individuals sub-pillars.

Table 1: Sweden rankings by sub-pillar

| Sub-pillar          | Rank | Sub-pillar  | Rank |
|---------------------|------|-------------|------|
| Businesses          | 2    | Economy     | 7    |
| Future Technologies | 3    | Governments | 9    |
| Quality of Life     | 4    | Content     | 11   |
| SDG Contribution    | 4    | Inclusion   | 11   |
| Trust               | 5    | Access      | 35   |
| Regulation          | 6    | Individuals | 52   |

#### NRI score and income

Figure 3 shows the position of Sweden in terms of both NRI score and GDP per capita (PPP). The trend line shows the expected NRI score given an economy's income level. As can be seen, Sweden is well above the trend line, which suggests that it has a greater network readiness than would be expected given its income level.

NRI score 80 -Sweden CHN 60 -IND 0 40 -0 0 0 0 11 12 GDP per capita PPP (log)

Figure 3: NRI score and GDP per capita PPP (log)

Note: USA = United States (rank: 1), SGP = Singapore (rank: 2), FIN = Finland (3), NLD = Netherlands (4), SWE = Sweden (5), CHN = China (20), IND = India (61). Sweden belongs to the group of high-income countries, where the best performer is United States of America (USA). The top performer of its region-Europe-is Finland (FIN).

#### Performance against its income group and region

#### High-income countries

Sweden is ranked 5th in the group of high-income countries (Figure 4, left panel). In terms of pillar performance, it has a score higher than the income group average in each of the four pillars. At the sub-pillar level, it outperforms high-income countries in eleven of the twelve sub-pillars: Access, Content, Future Technologies, Businesses, Governments, Trust, Regulation, Inclusion, Economy, Quality of Life and SDG Contribution.

#### Europe

Sweden is ranked 3rd within Europe (Figure 4, right panel). It outperforms its region in each of the four pillars. With regard to sub-pillars, it has a higher score than the regional average in each of the twelve sub-pillars.

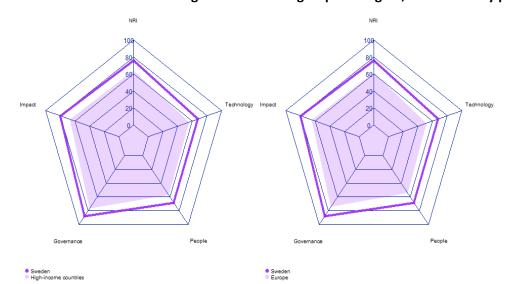

Figure 4: Performance of Sweden against its income group and region, overall and by pillar

Table 2: Sweden scores vs. averages of its income group and region, overall and by pillar

| Dimension  | Sweden | High-income countries | Europe |
|------------|--------|-----------------------|--------|
| NRI        | 75.68  | 64.07                 | 61.25  |
| Technology | 67.21  | 55.76                 | 51.90  |
| People     | 68.23  | 56.99                 | 54.16  |
| Governance | 87.74  | 76.81                 | 74.33  |
| Impact     | 79.52  | 66.73                 | 64.61  |

### Strongest and weakest indicators

The indicators where Sweden performs particularly well include 1.1.4 Population covered by at least a 3G mobile network, 3.2.4 E-commerce legislation, and 3.3.3 Availability of local online content (Table 3). By contrast, the economy's weakest indicators include 1.1.5 International Internet bandwidth, 4.3.4 SDG 7: Affordable and Clean Energy, and 3.2.2 ICT regulatory environment.

Table 3: Highlight of Strengths and Opportunities for Sweden

| Strongest indicators                                      | Rank | Weakest indicators                       | Rank |
|---|------|--|------|
| 1.1.4 Population covered by at least a 3G mobile network  | 1    | 2.1.6 Al talent concentration            | 21   |
| 3.2.4 E-commerce legislation                              | 1    | 3.2.2 ICT regulatory environment         | 45   |
| 3.3.3 Availability of local online content                | 1    | 4.3.4 SDG 7: Affordable and Clean Energy | 66   |
| 4.3.3 SDG 5: Women's economic opportunity                 | 1    | 1.1.5 International Internet bandwidth   | 70   |
| 1.3.2 Investment in emerging technologies                 | 3    |  |      |
| 2.2.3 Knowledge intensive employment                      | 3    |  |      |
| 4.3.1 SDG 3: Good Health and Well-Being                   | 3    |  |      |
| 4.3.5 SDG 11: Sustainable Cities and Communities          | 3    |  |      |
| 2.3.4 R&D expenditure by governments and higher education | 4    |  |      |
| 3.1.3 Online access to financial account                  | 4    |  |      |
| 3.1.4 Internet shopping                                   | 4    |  |      |
| 4.1.3 PCT patent applications                             | 4    |  |      |
| 4.2.1 Happiness   | 5    |  |      |

Note: For the full list of strengths and weaknesses, see At-A-Glance table.

Rank: 5 (out of 134) Score: 75.68
